Sweepstakes Champion Results

The following are all 44 players with their rankings for the Sweepstakes Champion. This means each player was ranked using the combined formula:

Battle Points + Painting (The combined painting from our two judges * 1.25)
+ Sportsmanship (Sportsmanship * 2.5).

The reason why there are multipliers is because we wanted the break down for Sweepstakes Champion to be 50% Battle, 25% Painting, 25% Sportsmanship. There are 150 possible battle points, which means to obtain the other 50% Sports and Painting must be 75 each, thus the multipliers.
